Remarkable Machine Trapunto for the Timid Quilter

Saturday, April 13, 2019

Just imagine turning your quilt into a 3D piece of art. Quilting is the only art form that can do this from within. Whether you are a brand new quilter or someone who is experienced, this class is perfect for both. I take all of the fear out of quilting using an open toe walking foot and your own home sewing machine. No free motion quilting experience is necessary. Once you see how easy my method is you will use it over and over again to impress family, friends or possibly even judges in a quilt show!

There is a mandatory kit fee of \$45.00 (payable in class) which includes batting, lifetime guaranteed special scissors that you will need to trim your wool, Chacopen blue with eraser, butterfly pattern, written instructions.

Supply List:

- Full size sewing machine in good working order (portable machines do not work well for this method)
- Open toe walking foot
- Two “plain” colored fat quarters (no prints, please). You may choose to select two of my reMARKable Hand Dyed FQ for \$5.50 each.
- Large pair of fabric shears
- General sewing supplies
- Matching thread for your FQs (I carry a wide variety of threads you might want to purchase)
