

Lydia Middaugh – Advanced Wool Applique Class

In the advance class, I will teach you how to add dimension and advanced stitches to bring your work to another level. I will introduce you to a variety of stitching threads and materials other than wool that can bring beauty to your piece. In addition, I will provide you with beads and show you how to incorporate them in your work.

Class kit required \$35. We will be working from a kit that includes everything you will need; wool, heat-n-bond lite, different threads, needles and beads.

Supply List – what you need to bring to class: mechanical pencil, paper scissors, very sharp small scissors and an iron that steams with a pressing mat. Irons may be shared among friends. Currently, I am developing the pattern and kit.
