

## **Directions for using pool noodles to make quilt basting easier!**

Kathleen Anderson

1. Lay your quilt out as for any type of basting. Good side of quilt top face down. Batting on top as 2nd layer. 3rd layer is quilt back with good side facing up.
2. Take one pool noodle and place it on the top edge of the backing and roll that layer backs twds the end of the quilt. Pin in place just so it doesn't unroll.
3. Do the same procedure with the batting and then the top respectively.
4. Unroll the top about 18" and smooth out and spray baste. Roll the batting out and smooth out and then spray baste same amount of area. Then roll 3rd layer (backing) out and smooth out.
5. At this point change your position and work from the opposite end. Do all 3 steps in order and your quilt basting is complete.
