

## Fall Migration 2019: Sue's Quilt

My quilt: Finished size is 55" wide by 61" long

This quilt is jelly roll and fat quarter friendly.

It is created by strip piecing.

Supplies:

- Strips 2 ½" s x 18" (I used fat quarter pack) or 2 ½" x width of fabric (WOF) (Jelly Roll or yardage) long
  - Fabrics need to have an equal number of each of 4 values. Dark, Medium Dark, Medium Light, Light
  - My fat quarter pack had 20 fabrics, so I had 5 sets of 4 colors. I used 6-strips each of the 20 colors - each was 2 ½"x18" (120 strips total)
  - If using Jelly Roll or WOF that would be 3 strips each of 20 colors - each being 2 ½"x WOF (60 strips total)
  - It also looks very good using yardage of just 4 fabrics.
  - If making it totally scrappy – stash buster, then strips need to be at least 9" long (so a layer cake could work)
- Rotary cutter
- Mat
- Ruler – easiest if you have an 8 ½" or larger square ruler but it's not required. Also, a 12" or longer straight ruler
- Small wallpaper roller or another wooden tool to help with finger pressing is helpful but not required
- Sewing machine and other basic sewing supplies

Pre workshop work:

- Have strips cut and sorted into sets of 4 following the values from above.
- If you can – sewing the strip sets together in order, D, MD, ML, L. This will allow you to get right to work.
